

# Y6 Homework

Date Given: Monday 8<sup>th</sup> January 2018

Date to be handed in: Monday 15<sup>th</sup> January

We will be continuing our science topic on electricity for a few more weeks this half term. As part of this, you need to know about a scientific inventor/ discoverer. For homework this week, I would like you to research and present your findings on one or two important people linked to the history of electricity and its discovery. I expect one page of research and information (its up to you if you would like to just concentrate on one person or two. Either way, just one page is needed.) You need to conduct your own research and present your findings. This will be going in your science books therefore needs to be well presented. No straight copying and pasting will be accepted. You need to understand what you have read and re write it in your own words, as you will be expected to present your research in a small group.

If possible, can you use the purple mash template that I have set to present your work like we did for our polar bear research? This means you can just complete it then press 'hand in' and we can print them off at school.

Username and password: \_\_\_\_\_

If this is causing major issues, you may do it on word and print it out or email it to me: [bookwellyear6@outlook.com](mailto:bookwellyear6@outlook.com) This email must only be used to send homework to make life easier for you. Any other messages need to come to school as normal NOT by this email.

Finally, if using ICT is completely out of the question, you may hand write it and bring it in. I have a template for you to use if you need to do this.

Spellings- Remember that spellings will now be tested on a Friday. Learn these carefully this week.

If your child needs any help completing their homework, please send them to school with it before the hand in date. I will be more than happy to help. Remember that homework club on a Tuesday is also available for children to attend. Please request a letter if you would like your child to attend this club.

Mrs Rae ☺
