

Y6 Homework

Date Given: Mon 30th October

Date to be handed in/ tested: Mon 6th Nov

Maths Homework

Please complete pages 5 and 6 in your question book (the pretty coloured one!). Please do this in pencil. This homework is based around negative numbers, which we have been learning about this week.

Times Tables

It is that government's expectation that all children know their times tables by the end of Year Four. Times tables are really important and when children know them well, can make many other areas of maths much easier. We continue to practice these in school to keep on top of them however, as most children do know them well, will not spend as much time learning them as teachers in previous classes would.

To help to keep on top of these at home, each child has been given times table sheets for this half term. It is expected that they complete one of these weekly. They need to complete it as quickly but as accurately as they can and time themselves. Each week they need to record their time in the back of their journal. Their aim is to complete the sheet in less and less time each week. I have also provided the answers so answers can be checked. 5 seconds for each incorrect answer needs to be added onto the final finishing time.

Mathletics

Please complete at least 20 minutes this week.

English Homework

Please complete page 5 in your reading comprehension book.

Spellings- This weeks spellings will be based on the suffixes and some of our Year Six tricky words.

If your child needs any help completing their homework, please send them to school with it **before** the hand in date. I will be more than happy to help.

Mrs Rae ☺
