

# Year 3 Newsletter

I hope you have all had a lovely week off and have recharged your batteries because we have a very busy term ahead.

October 2019

Most of us are very good at remembering what we need to bring to school but just a little reminder to:

- Hand in your completed homework on Monday morning.
- Bring your brass instrument to school every Tuesday.
- Have PE kit in school during the week and bring forest school clothes on Thursdays (more information about forest school to follow).

## Literacy

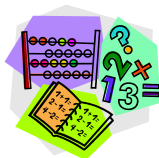

We will read the story of Kassim and the Greedy Dragon and learn how to write a warning story. After that, we will be creating shape poems and calligrams.

## Numeracy

We will be doing lots of work on multiplication and division at first. Then we will focus on time, before moving onto fractions.

## Science

Our focus is on health and movement where we will be thinking about what a balanced diet contains, as well as finding out about our skeleton and how it moves.

Your spelling and tables test results have been excellent so far. Well done! You must all be practising hard. Remember you can log onto spelling shed or TT Rockstars to practise as well. Keep up the good work Year 3!

Our foundation subject themes are:

Geography - Earthquakes

RE - Christmas

Computing - Online safety, Spreadsheets

PE - Forest school, Badminton

Music - Brass tuition

Art - Drawing

French - Je parle Français!

DT - Food Technology

PSHE - Celebrating difference
