When Flora Burns adopted the house in 2006 she found that there was holes in walls, no windows and vandalised everywhere.

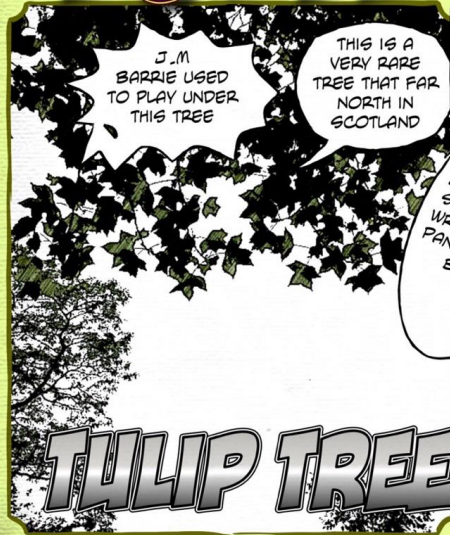

IN 1823 THE HOUSE WAS DESIGNED BY WALTER NEWALL AND WAS CALLED NUMBER ONE BECAUSE IT WAS ONE OF THE BEST HOUSES IN DUMFRIES.

This is a statue of Peter Pan it sits on a piece of wood in the garden but right now it is inside so no one can steal it.

Moat Brae future house

This is Moat Brae entrance which might be changed to something else in the future but will stay like this for a couple of years until the full house has been refurbished and has had some building work inside .

This will hopefully be the future Moat Brae if the people that are looking after it decide if it will look like this.

This will be what Moat Brae will look like at night if the building gets finished in time to be opened

FUTURE HOUSE

Although it looks ruined now the people at Moat Brae want to make it an exciting place to visit.

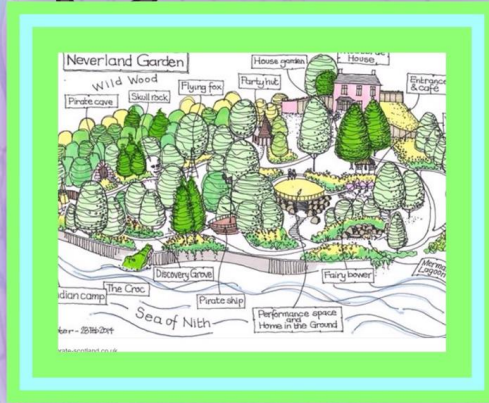

They're planning to make some of the rooms look Victorian, a room to get married in, in the attic they are going to make a recording area, they were going to make a darlings bed room, the basement is gonna be an under ground home.

The back of the house will have windows and adventure and cleaner and safe
