

Year 2 Newsletter

Welcome back Year 2!

I hope you all had a lovely holiday and are ready to do lots of hard work over the next half term.

April 2017

Most of us are very good at remembering what we need to bring to school and what we need to do at home but just a little reminder to:

- Hand in your completed homework on Monday morning.
- Hand in your reading record on Friday morning. Reading records are checked in school to ensure that you are reading at home. Reading every day really helps you become a better reader and is very important. After you read with an adult, you could ask them some questions about the book or you could give them a summary, just like we do in guided reading.

Literacy

In literacy, we will be researching Kenyan animals and writing reports about them as well as doing some important persuasive writing. We will also be writing a fantasy story this term.

Numeracy

This half term we will be doing work on measuring weight and capacity. We will also be working on statistics and presenting information as well as continuing our work on addition and subtraction methods and learning more about multiplication and division.

Science

In science we will be investigating animals and how they are suited to their habitats and we will be using our knowledge to compile a multimedia presentation on a Kenyan animal in computing.

If you have any shirts or long-sleeved t-shirts that adults or older siblings don't need any more could you please bring them into school to use as painting shirts.

Our foundation subject themes are:
Geography— On safari in Kenya
RE - Islam—Community and belonging
Computing— We are researchers
PE—Team games and sports coaching
Music—Timbre, tempo and dynamics
Art - Printing and painting
PSHE - People around us
