

Year 1 Newsletter June-July 2011

Our science topic is about sound and hearing this half term. If you have a toy that makes a sound please bring it in to school to show us.

We are looking at our local area in geography. We will investigate how much traffic goes past our school.

On our computers we will be working on pictograms and graphs.

We will be going on our school trip this half term to the Gincase in Mawbray. We are hoping for a nice sunny day.

Phonics

This half term some children will be revising the different spelling patterns that have been covered throughout the year.

Our show this year is Mister Skellybones and it starts on Tuesday 28th June. We hope you can make it.
