Autumn 2

What's on this term?

Welcome back to school. I hope you have all had a good holiday. Here are the topics we will be studying this term:

In numeracy we will start off by working on measure followed by compass points and directions, time, money, fractions, multiplication and division

In literacy, we will be studying poetry and report writing which will link to our history topic, The Tudors.

In science, our topic is circuits and conductors and we will be investigating electricity and what we need to construct a working circuit.

In art, we will be designing and creating a chair for Henry VIII. It would be great if you could bring in any cardboard tubes or cereal boxes you have at home for this project.

In RE, we will be learning about the Bible and sacred books belonging to different religions and in French we will continue to learn how to describe our pets. PE this term is gymnastics and Tudor dance and our swimming lessons continue on Fridays so please make sure you have your swimming kit in school and your inhaler if you need one. In ICT, our work on editing and presenting text will continue. We will also be progressing with our ukulele lessons in music.

Please ensure you bring a pencil to school every day!

Homework

Homework should be handed in every Monday morning. Please place it in the tray at the back of the classroom.

Don't forget...

To learn your tables and spellings thoroughly for our test each Friday and ensure you are reading every day.

Please just ask if you are unsure of anything at all.

Mrs Smith.
