

Year 3 Homework

Hand in on: Monday 4th March

1. Mathletics and phonics spellings to learn. Your spelling test will be on Friday.
2. I would like you to learn division facts for the 5 times table for your test this week. This will be on Thursday.
3. Maths: As it is maths week, your homework challenge is to design a maths based game. We have looked at maths games in class today so you should have ideas about whether you want it to be a board game, a quiz, matching pairs, dominoes, snap, a guessing game. These will be judged on Monday and there will be a prize for each class.
You should be trying to strive for five and read five times a week. Make sure you bring your reading book and reading record to school **every day**.
