### Numeracy

In your child's homework books please write a single digit number (1-9) on a line and ask them to count up in tens and write these numbers until they reach 100.

For example: 2, 12, 22, 32, 42, 52, 62, 72, 82, 92

Please do this for 5 different numbers so that you have at least 5 separate lines. To extend your child you could do this for all single digits (1-9).
